MEMORANDUM FOR: Inspector General's Staff

25X1A

SUBJECT : Briefings by Office of Medical Services Officials

As requested, following is a listing for Calendar Year 1967 of non-routine briefings by Office of Medical Services officials of other Agency components. This listing is compiled based on data provided by our division/staff chiefs in response to the immediate question. Since there is undoubtedly some variance in individual interpretations of "non-routine" vs routine briefings, this listing may not be comprehensive. It is believed, however, that it does provide the appropriate general impression as to OMS non-routine briefings. Any further information desired may, of course, be obtained from the undersigned or from the division/staff chief concerned during your meetings with these officials. This is particularly the case with our Operations Division; chief of that division indicates that since they are continuously engaged in training and briefings, he would like to discuss this with you when you meet with his division.
